APIXIA EXL PSP SCANNER-108L

The EXL® PSP Scanner packs tremendous imaging power into a small package.

Tiny enough to fit into the most crowded work stations, yet robust enough to be placed in a central location for use by the entire clinic, the EXL® PSP Scanner is the ideal product for any size practice.

Included:

- 4 imaging plate for Size #2
- 1 imaging plate for Size #4
- 1 imaging plate for Size #5
- 300 pcs of plate barrier envelopes for Size #2
- 50 pcs of plate barrier envelopes for Size #4
- 50 pcs of plate barrier envelopes for Size #5
- Cleaning plates and Plate container
- USB cable and Ethernet cable
- Power adaptor, Imaging software and User manual

APIXIA EXM PSP SCANNER - 108M

The Apixia EXM® PSP Scanner packs tremendous imaging power into a small package. It is tiny enough to fit into the most crowded dental operatories for handy chairside use.

Imaging with Phosphor plates offers all the flexibility and patient comfort of film, combined with the immediacy and environmental benefits of digital radiography.

Included:

- 500 pcs of plate barrier envelopes for Size #2
- 12 imaging plates for Size #2 (3 boxes, one box has 4 pcs same size)
- Cleaning plates
- Plate container
- USB cable and Ethernet cable
- Power adaptor
- Imaging software and User manual
- Power adaptor, Imaging software and User manual

CPI CMP200 X- RAY GENERATOR

The **CMP 200® generator** series offers advanced high quality radiographic capabilities with unmatched performance and reliability resulting in the lowest cost of ownership over the product lifetime. This generator is suitable for film and CR-based radiographic systems and features leading edge computer-based controls to minimize patient dose and maximize image quality while demonstrating excellent reproducibility with user-friendly operator controls.

ATX has factory trained personnel to advise, install and maintain CPI generators.

Generators can be retrofitted into your existing bucky room or included into a new facility.

DEL FLOOR
MOUNTED TUBE
STAND

The **FMT Floor mounted tube stand** features an advanced, 10.4" technologist-friendly touchscreen console that provides large text readouts and integrated operation of the tube stand. Ergonomically placed movement identification buttons provide optimal accuracy when setting up views. Take advantage of extensive longitudinal and vertical movements, as well as a 180° rotating tube column enabling positioning for cross-table lateral exams.

The FMT Floor Mounted Tube Stand comes in 3 different models:

DEL RT100
PATIENT TABLE

The sturdy **RT100 four-way float top table** is suitable for use in a variety of general radiographic environments including small hospitals, clinics, ambulatory care centers and private offices. The table features a 700 lbs (318 kg) patient weight capacity and a stain resistant floating table top which glides freely on a precision roller bearing system. Float top movements are safely controlled by heavy-duty electric locks, activated by a conveniently placed foot treadle release. The 17" x 17" standard bucky tray can accommodate any cassette sized detector with ease. Its all steel structure and welded base provides maximum strength and reliability. In addition, the RT100's pedestal base can be used to store generator electronics making it a great space
