

X-RAY EQUIPMENT

CPI CMP200 X-RAY GENERATOR

The **CMP 200® generator** series offers advanced high quality radiographic capabilities with unmatched performance and reliability resulting in the lowest cost of ownership over the product lifetime. This generator is suitable for film and CR-based radiographic systems and features leading edge computer-based controls to minimize patient dose and maximize image quality while demonstrating excellent reproducibility with user-friendly operator controls.

ATX has factory trained personnel to advise, install and maintain CPI generators.

Generators can be retrofitted into your existing bucky room or included into a new facility.

MANUAL COLLIMATOR CML 125 - COLLIMARE

Your First Choice for Collimator Needs

- Manual Certified Units
- Non-Certified Veterinarian Units
- Portable Certified Units
- Portable Non-Certified Veterinarian Units
- Mobile Certified Units
- High Throughput Clinical Application Units
- Custom Units
- Collimator Accessories and Add-ons

Lead time:

Subject to stock availability, transit times and radiation licensing. Estimated

DEL FLOOR MOUNTED TUBE STAND

The **FMT Floor mounted tube stand** features an advanced, 10.4" technologist-friendly touchscreen console that provides large text readouts and integrated operation of the tube stand. Ergonomically placed movement identification buttons provide optimal accuracy when setting up views. Take advantage of extensive longitudinal and vertical movements, as well as a 180° rotating tube column enabling positioning for cross-table lateral exams.

The FMT Floor Mounted Tube Stand comes in 3 different models:

DEL RT100 PATIENT TABLE

The sturdy **RT100 four-way float top table** is suitable for use in a variety of general radiographic environments including small hospitals, clinics, ambulatory care centers and private offices. The table features a 700 lbs (318 kg) patient weight capacity and a stain resistant floating table top which glides freely on a precision roller bearing system. Float top movements are safely controlled by heavy-duty electric locks, activated by a conveniently placed foot treadle release. The 17" x 17" standard bucky tray can accommodate any cassette sized detector with ease. Its all steel structure and welded base provides maximum strength and reliability. In addition, the RT100's pedestal base can be used to store generator electronics making it a great space saver.

**X-RAY TUBE
VAREX
DIAMOND RAD
14**

The RAD-14 is a 3" (80mm), 150 kV, 212 kJ (300 KHU) rotating anode insert specifically designed for general radiographic and fluoro/spotfilm procedures. The insert features a 12° tungsten rhenium molybdenum target and is available in the following focal spot combinations:

- 0.3 - 1.2
- 0.6 - 1.2
- 0.6 - 1.5
- IEC 60336

Nominal Anode Input Power:
Small (0.3) - 7.5 kW IEC 60613
Small (0.6) - 32 kW IEC 60613
Large (1.2) - 77 kW IEC 60613
Large (1.5) - 95 kW IEC 60613
For the equivalent anode input power of 80 Watts

DIGITAL X-RAY
CHIROPRACTIC
SOLUTION**

The **Raymaster Full Spine Integrated Digital X-Ray Chiropractic solution** is an economical and small footprint radiographic system designed specifically for chiropractic care. It combines flexibility, efficiency and affordability. The system will instantly improve patient workflow by eliminating the use of cassettes and developing conventional x-ray film. Instead, our Universal Chiropractic Solution are powered by the intuitive ATX Longtail full spine DR system giving technologists access to high resolution digital imaging and processing capabilities. The Longtail is the world's first monolithic full-spine flat-panel DR detector. No more long scan wait, no image stitching, no image gaps, and no plate overlap. The acquisition

time is sub one second in most cases - so it will substantially improve efficiency.

Key benefits:

- Mounts floor-to-wall or floor-to-ceiling
- Tube rotation enables precision alignment of the tube for non-angled, angled and upright views.
- Convenient display gives indication of tube rotation
- CMP 200 X-ray generator series offers advanced high quality radiographic capabilities with unmatched performance and reliability resulting in the lowest cost of ownership over the product lifetime
- Longtail Digital Radiology. It is the first of its kind to produce long-bone and full-spine digital studies instantaneously with the highest geometric accuracy.
