CPI CMP200 X-RAY GENERATOR

The **CMP 200® generator** series offers advanced high quality radiographic capabilities with unmatched performance and reliability resulting in the lowest cost of ownership over the product lifetime. This generator is suitable for film and CR-based radiographic systems and features leading edge computer-based controls to minimize patient dose and maximize image quality while demonstrating excellent reproducibility with user-friendly operator controls.

ATX has factory trained personnel to advise, install and maintain CPI generators.

Generators can be retrofitted into your existing bucky room or included into a new facility.
